Dear Participants:

We are pleased to inform you that as of today you can find enabled the registration of multiple W8/W9 formats from the same email within the platform.

In order to do so, you must enter the platform and **register as a new user** and enter the data of the Beneficiary Entity you are registering. This process can be done as many times as necessary as long as when registering a new format they enter as a **New User** and the new entity always has a different RFC than any other previous registration. Once your registration is complete you will receive an email with the User ID corresponding to each new registration.

Below are some screenshots that will serve as an example for your multiple registrations:
